

Biological Science Jobs IN THE FEDERAL GOVERNMENT

Sample Job Profiles

BIOLOGIST

Salary Range: \$38,959-\$68,225 per year
Duty Locations: Seattle, WA

Job Summary: Located in the National Marine Fisheries Service center, this position is dedicated to the stewardship of the nation's living marine resources and habitat through scientific research, management and enforcement. Be responsible for overseeing and conducting aerial and shipboard surveys for right whales and other cetaceans in the Bering Sea, as well as managing and analyzing survey data and writing reports.

Major Duties: Duties include overseeing organization of operations and logistics for surveys for large whales, participating in field work on large whales in the Bering Sea, overseeing data processing, summaries and reports.

BIOLOGICAL SCIENCE TECHNICIAN (ANIMAL)

Salary Range: \$31,787-\$46,064 per year
Duty Locations: Fort Collins, CO

Job Summary: The USDA needs bright, energetic, committed professionals to facilitate marketing of U.S. agricultural products and protect the health of animals and plants in the United States.

Major Duties: Independently care for a wide variety of caged or penned wild animals and birds. This requires the ability to capture animals with minimal stress to the animal. With a computer, independently create a database for studies of various species.
